

# Linear Regression with Movie Statistics

Andrew Auyeung

# Outline

Methodology

What do the numbers say about a good movie?

Conclusion / Next Steps

A decorative pattern at the bottom of the slide consisting of numerous vertical bars of varying heights, rendered in different shades of teal and light blue, creating a stylized bar chart effect.

# **Does Money Make Money?**

# Methodology

Data: BoxOfficeMojo

Sample: Domestic Movies from  
2000-2019 with a large release  
(1500+ theaters)

Target: Predicting Domestic Gross

# Features

## Strong Indicators

Historical statistics of  
Production Team

Release Date

Runtime

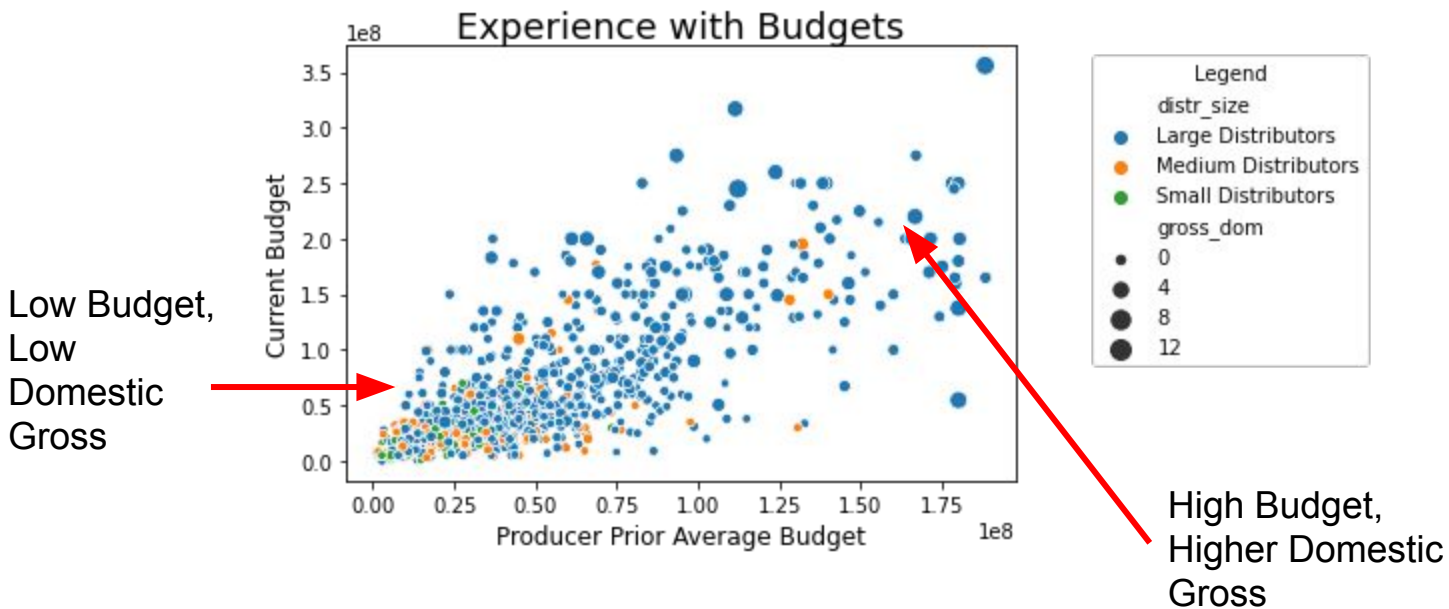

## Weak Indicators

Proximity to Holiday  
Weekends

Genre

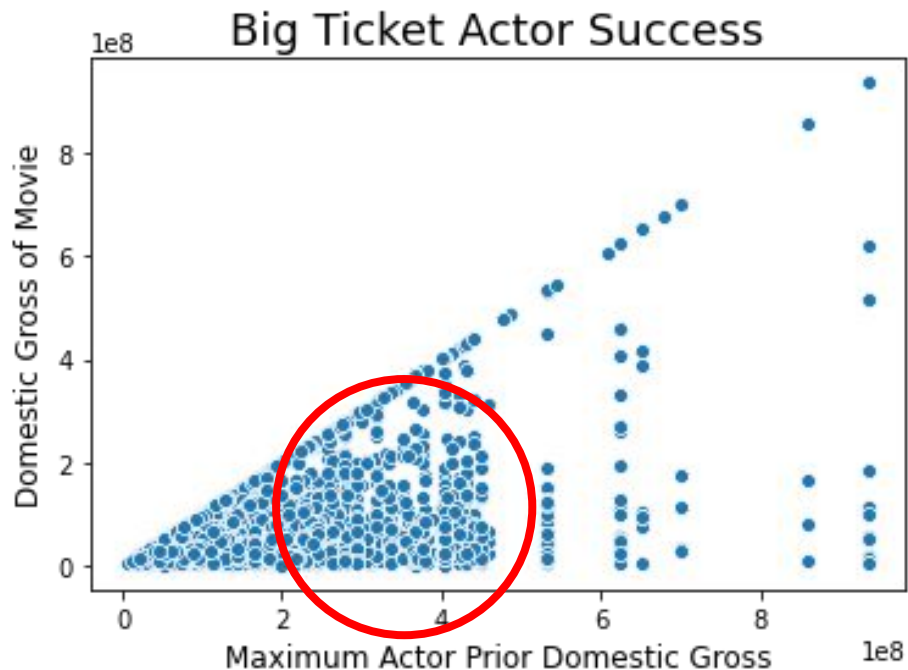

MPAA Rating

# Feature Relationships

# Feature Relationships

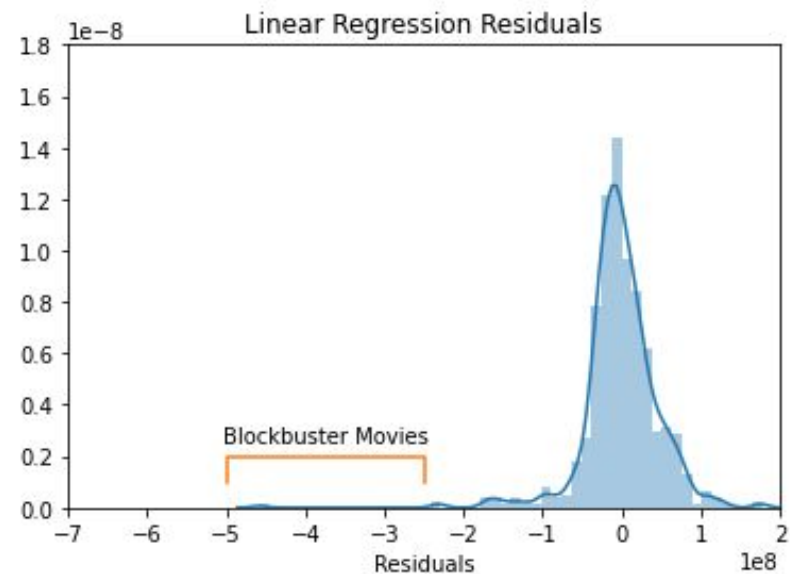

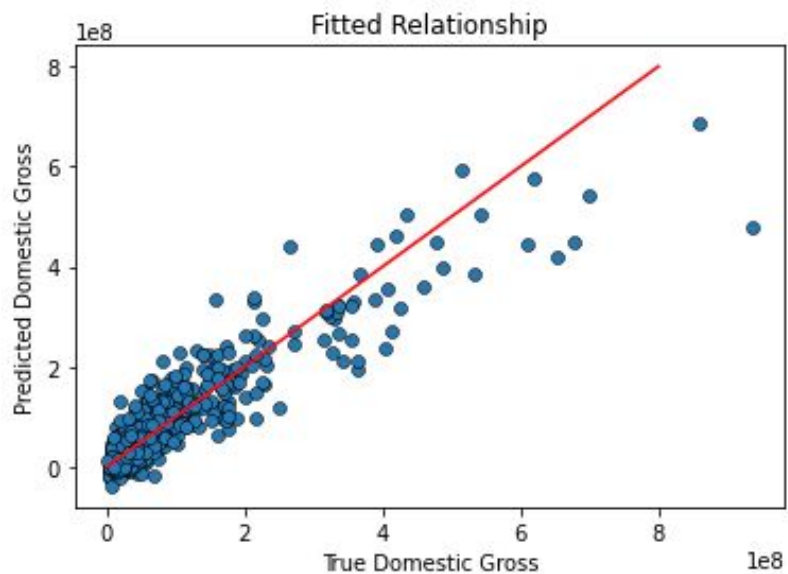

# **Does Money Make Money?**

**Maybe!**

# Results

## Future Steps

- ❖ More data (Actual Actor salaries)
- ❖ Group Categorical Features like Genre
- ❖ Include Sequel or Franchise information

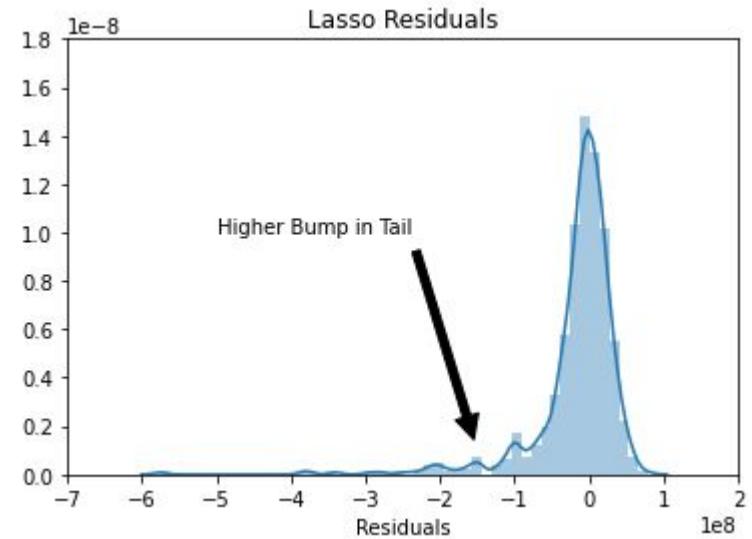

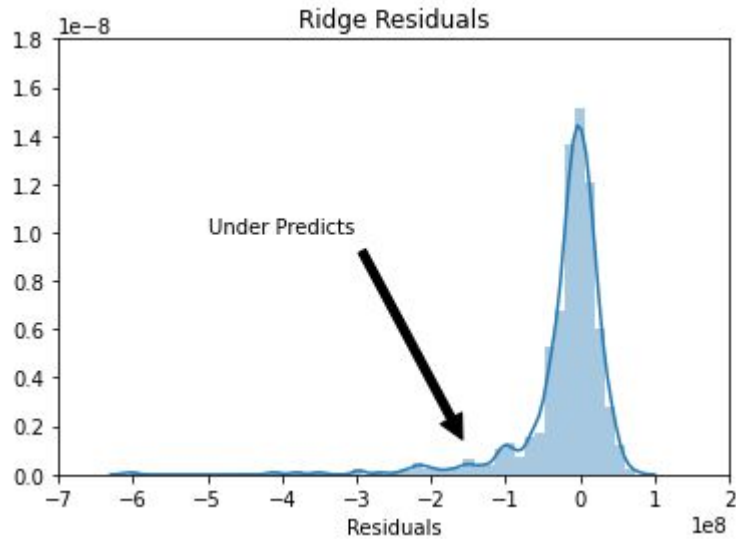

**Questions?**

# Appendix - Cross Validation
